RD1U-CA SERIES

The RD1U-CA series is our light duty clamshell designed rack drawer monitor. Similar to a laptop the monitor folds over the keyboard. It is designed for light industrial and IT environments. They offer a large range of keyboard/pointer options as well as LCD options.

- Clamshell Design
- Keyboards Under LCDs
- Comes in 17", 20", and 24" Depths
- KVM Options Available On Select Models
- Customizable Moduler Design
- LED Backlit LCDs
- Aluminum Lightweight Construction
- Built-In Ball Bearing Slide Rails
- LCD Size Options. Include 15", 17", 17 Wide, 19" And More
- Telescoping Rear Mounting Arms

RD1U-CAT SERIES

The RD1U-CAT series is our heavy duty transit case clamshell designed rack drawer monitors. It is designed for rugged mobile environments. This series offers a large range of keyboard and pointer options. KVM options are available on select models. With so many customizable options we can create a RD1U-CAT for almost any environment.

- Transit Case Ready
- Designed for Rugged Mobile Environments
- Comes in 17", 20", and 24" Depths
- KVM Options On Select Models
- Flexible Pointer & Keyboard Options
- Built-In Mil Spec Friction Slide Rails
- LCD Size Options Include 15", 17", 17W, 19" And More
- Rugged All Aluminum Construction
- Customizable Moduler Clamshell Design
- Telescoping Rear Mounting Arms

The Worlds Most Configurable Monitors

RD1U-F SERIES

The RD1U-F series is our layflat designed rack drawer monitors. The panel lays back flat in the drawer when in the stowed position. Because the keyboard is positioned in front of the LCD it takes very little space when deployed. We have code named them stealth rack drawers.

- Available in 27", 30", and 32" Depths
- KVM Options Available On Select Models
- Flexible Keyboard and Pointer Options
- Customizable Modular Lay Flat Design
- LCD Size Options Includes 19", 20" And 20.1"
- Built-in Ball Bearing Slide Rails
- Aluminum Lightweight Construction
- Monitor Can be Adjusted To Any Position
- Telescoping Rear Mounting Arms

RD1U-F27xx

RD1U-S20 & RD2U-S20 SERIES

The RD1U-S20 and the RD2U-S20 are our split series rack drawer. The S series has the monitor on one set of slide rails and the keyboard and mouse on another. This allows the keyboard and monitor to be moved independently of each other. Both are 20" deep, but the RD2U-S20 has many more KVM and keyboard/pointer options.

- All Aluminum Lightweight Construction
- Rear Telescoping Mounting Arms
- Built-in Slide Rails
- Multiple KVM Options Available on RD2U-S20
- Customizable Modular Split Design
- LCD Size Options Include 15", 17", 17" Wide, 19" And More
- Quarter Turn Locking Power Connector

RD2U-S20xx

RD1U-S20xx

RD3U & 4U SERIES

RD4U-F24xx

RD3U-F20xx

The RD3U and RD4U are part of our HYDRA multi-head rack drawer series with integrated keyboard/pointing devices. The keyboard/pointer are mounted on its own slide rail and moves independently of the monitors. There is an extensive amount of keyboard/pointer and KVM options available. Along with multiple display numbers and layouts.

- 20" and 24" Depths
- Multiple Displays and Display Layouts
- Customizable Modular Design
- Integrated Friction Slide Rails
- Rugged All Aluminum Construction
- Transit Case Arms
- LCD Options include 17" Wide And 19"
- Protective Cage Style Cable Guide System
- Unified OSD Buttons

- Rugged All Aluminum Construction
- 4 Point Lock Down
- Unified OSD Buttons
- Protective Cage Cable Guide System

PDD3-F22xx

The Worlds Most Configurable Monitors

PDD1 & 2 SERIES

The PDD1 and PDD2 series are our pivot display drawer monitors. The PDD1 series has the unique ability to pop up from a lay-flat position and pivot on a center axis. The PDD2 series has a multitude of options with the ability to go from laying flat to 110 degrees. This series also offers an undermount position allowing you pull down the monitor from it's stowed position. We offer a transit case version of each model.

- Offered in 16", 20", And 24" Depths
- Customizable Moduler Design
- Layflat And Center Pivot Options
- Center Pivot Display Up To 125 Degrees
- LCD Options Include 15", 17", 17" Wide, 19", 20", 20.1" And More
- Transit Case Options For Rugged Environments

PDD2-F20xx

PDD2-U16xx

PDD1-T20xx

RDKB SERIES

The RDKB series are rackdrawers that only have the keyboard and pointing devices built in. KVM switches are available on select models. They are perfectly paired with PPDx and our DTS product lines. This allows you to place a keyboard with rackdrawer monitors that don't have one. The RDKB series also offers transit case upgrades. Allowing them to be used in rugged environments.

- 15", 17", 20", 24" And 26" Depths.
- Economy, Light Industrial And Rugged Transit Case Options
- Mil-Spec Slide Rails On Transit Options
- Extensive Keyboard/Pointer and KVM Options
- Can Be Perfectly Paired With Our Other Monitor Series
- Seemingly Endless Possibilities

RDKB-T24

RDKB-I15v

- MMR-BExx Broadcast Elite: High End Broadcast Field Monitors
- MMR-UKxx: Storm Case Design Mobile Monitor Building Blocks
- MMR-Mxx: Military Grade Machined Aluminum Tactical Field Displays

The Worlds Most Configurable Monitors

Our M Series or military series is where we have taken our most popular display from the IT, transit, and mobile products and upgraded them to a military grade or redesigned a product to military design. To meet harsh environments, shock and vibrations, moisture and ingress of dust and debris. Our product line includes MR (similar to our RDTU), MP (similar to our PDDx), MD (similar to our DTS) and introducing our new MM which is a flex mounted monitor (rack mount, panel mount, vesa mount, machined and welded aluminum chassis.) These products are design to meet 901D and 810F military grade requirements.

DTS SERIES

DTS-RMxx

HYDRA
MULTI-HEAD RACK MOUNT DISPLAYS

DTS Hydra

DTS-OR240W

DTS is our display and touch systems. It consists of our rack mount(RM), on rack(OR), telepresence(TM), panel mount(PM), and open frame(OF) display monitor solution. These monitors are designed to have integrated touch or not, depending on your application. We have a wide variety of panel housings to meet just about any application. On the odd occasion that you need a custom panel built, we can leverage on our DIT monitor building blocks to come up with a solution for your needs.

- DTS-RMxx Rack Mount Fitting Inside a Standard 19" Rack
- DTS-ORxx On Rack is Design To fit On A Standard Rack But Not In
- DTS-TMxx Telepresence Monitor Sit Very Low To The Table With Incredible Viewing Angles
